AMENDMENT AFTER FINAL ACTION

(Response Under 37 CFR 1.116 - Expedited Procedure)

Sir:

In response to the Office Action of April 10, 2002, please amend the
above-identified application as follows:

In the Claims:

Please cancel claims 29 and 40 to 42.

Please amend claims 1, 15 and 30 as follows:

1. (Twice Amended) An immunogenic composition, comprising a plasmid which will
not replicate, wherein the plasmid comprises:

a first nucleotide sequence encoding a respiratory syncytial virus (RSV)
G protein or a RSV G protein fragment that generates antibodies that
specifically react with RSV G protein,

an immediate early cytomegalovirus promoter sequence operatively
linked to said first nucleotide sequence for expression of said RSV G
protein or fragment thereof, and

a second nucleotide sequence encoding the human cytomegalovirus
Intron A located between said first nucleotide sequence and said
